Professional Experience & Responsibilities

Mr. Dabisza has in excess of 10 years of experience in the evaluation of oil and gas reserves and preparation of economic evaluations for purposes of annual reporting, reserve certifications, reserves audits, debt financing, due diligence reviews, resource studies and acquisition and divestitures.

Mr. Dabisza has been responsible for evaluating numerous conventional and unconventional oil and gas companies in Canada. He has significant experience evaluating unconventional tight gas reservoirs in Western Canada including detailed evaluations of the Montney, Wilrich, and numerous Mannville formations; as well as coalbed methane and shale gas. He also has recent experience in evaluating the Duvernay Formation and horizontal tight oil plays in the Cardium, Bakken, and Viking formations. In addition, Mr. Dabisza has significant experience in evaluating enhanced oil recovery projects.

Mr. Dabisza also provides technical and economic advisory services to domestic and foreign investors interested in North American unconventional resource opportunities.
