Professional Experience & Responsibilities

Mr. Wurster is Vice President with McDaniel & Associates Consultants Ltd. and is an expert in the preparation of petroleum and natural gas engineering reserve evaluations, including economic forecasting and determination of net present worth and fair market value. He has an extensive client list, which includes both private and public oil and gas companies, banks and investment companies. He is also responsible for the supervision of a number of technical and professional staff at McDaniel dealing primarily with the evaluation of properties throughout Western Canada.

Mr. Wurster's specialty lies in heavy oil evaluations in east central Alberta and west central Saskatchewan. He also has extensive experience evaluating tight oil plays including the Cardium Formation in the Pembina area of west central Alberta and the Viking Formation in east central Alberta and west central Saskatchewan.

Mr. Wurster also has expertise with several leading evaluation software packages, including Value Navigator and Mosaic.
