Professional Experience & Responsibilities

Mr. Ng is an Associate with McDaniel & Associates Ltd. and is experienced in domestic oil and gas reserves evaluations, audits for corporate annual reports, and acquisition/disposition purposes for properties throughout Western Canada. He has an extensive list of clients, which include public and private oil and gas companies, both large and small.

Mr. Ng oversees shallow gas evaluations for many properties in Alberta. He has significant experience with high density infill programs as well as conventional oil and gas development in the Western Canadian Sedimentary Basin (WCSB). He is also responsible for reserve and resource evaluations of shale and tight gas plays (specifically the Montney Formation) for various clients.

Mr. Ng also supports and maintains internally developed analytic tools and software used for evaluations. In addition to reserves evaluations for corporate disclosure purposes, Mr. Ng is responsible for much of the estate and fair market valuation work completed by McDaniel.
