Professional Experience & Responsibilities

Mr. Wynveen has in excess of 10 years experience in the evaluation of oil and gas reserves and preparation of economic evaluations for purposes of annual reporting, reserve certifications, reserves audits, debt financing, due diligence reviews and acquisition and divestitures.

Mr. Wynveen has been responsible for evaluating numerous heavy oil and bitumen projects at varying stages of development. Mr. Wynveen also has significant experience evaluating unconventional tight gas reservoirs in Western Canada including detailed evaluations of the Montney, Spirit River, and numerous Mannville formations; as well as tight oil plays in the Cardium, Viking and Bakken formations. His primary focus has been the preparation of economic evaluations for the purposes of annual securities reporting and debt and equity financing.

Mr. Wynveen also provides technical and advisory services to financial institutions and foreign oil and gas companies who are interested in western Canadian resource plays.
