

Mikhail Alexeev P. Geol.

Associate

Post Secondary Education

Moscow State University - M.Sc. Petroleum Geology

Work History

2006 - Present McDaniel & Associates Consultants Ltd.

2001 - 2006 Baker Hughes Canada

1993 - 1999 KOGEC

Professional Organizations & Associations

The Association of Professional Engineers and Geoscientists of Alberta (APEGA) - Member

American Association of Petroleum Geologist (AAPG) - Member

Canadian Society of Petroleum Geologists (CSPG) - Member

Canadian Well Logging Society (CWLS) - Member

European Association of Geoscientists and Engineers (EAGE) - Member

Society of Petrophysicist and Well Log Analysts (SPWLA) - Member

Professional Experience & Responsibilities

Mr. Alexeev has in excess of 15 years of experience in petroleum geology and well log analysis focusing on subsurface mapping, petrophysical interpretations and reservoir characterization. He has been involved with evaluations of oil and gas properties outside of Canada for reserves certifications, annual reporting and acquisitions and divestitures during the past 10 years he has been with McDaniel & Associates. He has analyzed and reconciled geophysical data, geological and engineering data and has prepared geological models for reserves and resources evaluations.

Mr. Alexeev also has experience with the assessment of exploration prospects and portfolios using deterministic and probabilistic methods and risk analysis. He has experience with a variety of geosciences software programs.

Mr. Alexeev has accumulated experience in many major oil and gas basins throughout the world, including sedimentary basins in Kazakhstan, Russia, Europe, the Middle East, Central and Northern Africa, South America, Australia and South-Eastern Asia. He has worked with both clastic and carbonate reservoirs both onshore and offshore.
